March 1974

## SOCIETY DINNER

As announced elsewhere, the L.M.S. meeting on Friday, March 22nd will be held at the University of York. A Society dinner will be held in the evening; the charge per person will be £2.00. Would

those wishing to dine please write to me (Mathematics Department, The University, Heslington, York YO1 5DD) by March 15th, enclosing a cheque.

J. H. WILLIAMSON

## FORTHCOMING MEETINGS

Thursday, April 18th, at King's College:  
W. PARRY.

Friday, May 17th, at Swansea: D. McDuff  
and A. M. Davie. J. L. BRITTON

## HARDY LECTURER

As was mentioned in the February *Newsletter*, Professor Lars V. Ahlfors will be the Hardy Lecturer for 1975. The period of his visit will be the last two weeks in May and the first three weeks in June 1975. During this time he will be visiting various British universities for two or three days, during which he will give one formal seminar, which will probably fall within one of the following general categories:

- (i) Conformal invariants (including extremal length);

- (ii) Quasiconformal mappings;

- (iii) Fuchsian and Kleinian groups.

If you would like Professor Ahlfors to visit your university, please ask your Head of Department to let me know by about the end of April 1974, stating which dates are suitable or unsuitable. Professor Ahlfors's travelling expenses will be paid by the Society but the host university will be responsible for hotel expenses. My address is Queen Elizabeth College, London W8 7AH.

J. L. BRITTON

## DURHAM SYMPOSIA

Heads of Departments concerned to provide financial support for students and staff hoping to attend the Durham Symposia are reminded that in paying Research Training and Support Grants to University and College Departments in Great Britain and Northern Ireland, the S.R.C. state in their booklet on Studentships and Fellowships

that these grants are paid "as a contribution towards incidental costs incurred in the training of students..." The Council of the Society hopes that Heads of Departments will be able to regard the support of appropriate students and staff as a reasonable "incidental cost" in the training of their students.

W. H. COCKCROFT

## R.I.A. CONFERENCE ON NUMERICAL ANALYSIS

The National Committee for Mathematics of the Royal Irish Academy is holding a conference on Numerical Analysis at University College Dublin from July 29th to August 2nd, 1974. There will be about 26 invited speakers.

A limited number of short contributed papers will also be accepted. Reduced rates for travel and accommodation will be avail-

able to participants from abroad. A programme of social events will be arranged for both the participants and their families. The proceedings of the conference will be published. Further details and registration forms may be obtained from the Conference Director, Professor J. Miller, School of Mathematics, Trinity College, Dublin 2, Ireland.
