Members can now access their own records online by logging on to the Society's website: www.lms.ac.uk/user A member's record will contain the relevant information about them as held by the Society, including contact details and information about their membership and, where applicable, journal subscriptions. Members are encouraged to check this information carefully and make any changes, as necessary. Queries should be directed to membership@lms.ac.uk, 020 7291 9973.

Membership Benefits

We are pleased to remind you that your annual subscription entitles you to a range of benefits; use of the Verblunsky Members' Room at De Morgan House, use of the Society's Library at UCL, regular *Newsletters* and e-Updates, networking opportunities and membership of a vibrant international society, among many others including the discounts and free online access to journals, as mentioned below.

  - If you take a free electronic subscription to *the Nonlinearity*, your email address will be passed to the Institute of Physics who will contact you with details on how to access the journals.

Donations

Finally, would you consider making a donation to the London Mathematical Society? In making a donation - which you can do using the attached form - you would be following in a tradition established by G.H. Hardy and others. Your donation will be used to help the Society continue to achieve its objectives, including its **current five key priorities**: Postdoctoral Mobility Grants, Postgraduate Research Schools, Undergraduate Research Bursaries, Undergraduate Summer Schools and Continuing Professional Development for Mathematics schoolteachers.

Yours sincerely

In common with other mathematical societies, the Society regards a subscription as for personal use only if:

a. issues are either destroyed or held on a continuing basis among the member's personal belongings, and are not deposited even temporarily in a library, common room or other public room, and
b. issues are accessible to other mathematicians (or to students) only with the member's permission, given individually in each case, and
c. electronic subscriptions are only for personal use and may not be made accessible to other mathematicians.

Issues are the personal property of members, who would be able, without negotiation with authorities, to take the issues with them if they left their present institution or to give them to another individual who is willing to abide by these terms.
