ARCHIVING POLICY

Authors may (continue to) post electronic versions of their article up to the version initially accepted for publication[‡] on the author’s personal website, in a not-for-profit subject-based preprint server or repository, or in a Scholarly Collaboration Network (SCN) that has signed up to the STM article sharing principles (<http://www.stm-assoc.org/stm-consultations/scn-consultation-2015/>), or in the author’s company/institutional repository or archive. This right extends to both intranets and the Internet. The accepted version must be accompanied by a legend as follows: “This is the accepted version of the following article: FULL CITE, which has been published in final form at [Link to final article].”

[‡] For articles published with the paid Open Access option, this extends to the final, published version.
